

HEAVY DUTY TRUCK BATTERY ISOLATOR SWITCH

P/N: ASW-A804

ASW-A804 Heavy Duty Truck Battery Isolator Switch is rated for 1000A, DC 12-60V, ON- OFF 2 positions, and M10.

Mounting Hole Distance: about 65mm, Mounting Hole Diameter: 9mm, Product Diameter: 26mm.

ASW-A804 Heavy Duty Truck Battery Isolator Switch Details

- **Simple Operation**

ASW-A804 switch disconnects and reconnects power by simply turning the knob.

- **Sturdy Construction**

ASW-A804 switch is made of plastic and solid brass nut, which is rust proof, corrosion-resistant, durable and safe to use.

- **Great Compatibility**

ASW-A804 switch can isolate and protect the electrical system, and can be locked separately or together with other switches.

- **Safety Protection**

ASW-A804 switch safely disconnects the battery when the vehicle or boat is not in use and eliminates any power drain from the battery.

- **Wide Application**

ASW-A804 switch is widely used in switches for cars, trucks, RVs, boats, and electrical equipment.

ASW-A804 Switch Datasheet

Rating:	1000A, DC 12V-60V
Position:	2-ON/OFF
Material:	Plastic, Metal
Switch Size:	94.5 mm*94mm*146.5 (L*W*H)
Mounting Hole Distance:	about 65mm (L*W)
Mounting Hole Diameter:	9mm
Product Diameter:	26mm
Thread Diameter:	10mm
Screw:	M10
